

SAMUEL F. PARRY

sparry@kmclaw.com | 208.370.3325

ASSOCIATE

Samuel Parry is in the firm's Real Estate section and practices agricultural law for ranchers, farmers, and food processors. His clients appreciate his familiarity with the issues they face in their own operations and throughout the industry. Mr. Parry transitioned into a legal career after more than fifteen years in production agriculture. During that time, he worked on large commercial cattle operations across the U.S., including his home state of Idaho. Besides his experience in the agricultural industry, his degrees in animal science and economics complement his legal education. Mr. Parry is a former president of the Real Property Section of the Idaho Bar.

Mr. Parry still regularly dons his riding boots and crawls on the back of a horse to stay in touch with old friends and spend time with his family. He also uses leather and rawhide to create western art and working gear.
